As we move beyond the summer climate-change smoke and fire crisis and the current COVID-19 crisis, I will use my political voice and practical experience to apply what we have learned. I will promote strong action on climate change and better adaptation to keep our houses, public spaces and city liveable in a changing climate. I will support public transport, education and health that is accessible for all. I will help communities and businesses work together to build a fairer and greener system.

The ACT Greens are committed to continuous and open disclosure for a better democracy. Our donations policy requires full transparency, including ethically vetting and identifying donations that add up to \$1,000 per year or more from any single donor. The ACT Greens were instrumental in establishing the new ACT Integrity Commission and the ban on property developer donations. On a personal note, I'm available to constituents via email, Facebook, telephone, at public forums and via my participation in many Canberra groups. Community exchanges are essential to find out what issues are affecting people and how I can assist.

If elected, I will undertake these measures to promote and improve informed participation by my constituents in ACT policy development and decision making. (Up to 50 words, dot points, in 10pt Arial font)

COVID-19 restrictions are increasing online engagement through video calls, Facebook Live, community surveys and messaging. I'll use my entrepreneurial and communication skills to expand these channels after restrictions are lifted. They bring grassroots and participatory democracy to a broader group. They give the community a new voice.

Statement of Democratic Commitment

1. I will strictly abide by the ACT Legislative Assembly Standing Orders Code of Conduct for MLAs.
2. I will fully disclose and make public the sources and value of all political funding donations, contributions, gifts public and private towards my election campaign and political activity, within one month of receipt.
3. I will place the public interest (the welfare and wellbeing of the general population and the integrity of the planet) ahead of sectional, corporate, personal, religious or other interests.
