THINGS TO READ AND LISTEN TO

Our standing reminders about:

- [Democracy Sausage podcast](#) from the ANU Public Policy Institute. Lots of very topical topics, and
- [The Remakers podcast](#). Australia ReMADE's podcast has a fascinating series of discussions and interviews and is well worth a listen. Both **available** from your favourite podcast service.
- **Juice Media** for an [irreverent and spicy look at current politics](#) in Australia and beyond.
- **Crazy Town** From [the Post Carbon Institute \(go to Products/Podcasts\)](#). 2025 season looking at how to get out of Crazy Town. And still lots of back episodes to listen to.

Addition to our library

US based Democracy – a user's guide, gives a detailed overview of democracy and how we might make it work better for us. Very current.

Nobel laureate economist (Angus Deaton) savages his own profession as clueless and unethical ([\\$here@Crikey](#))

In case you are pay-walled out, key quotes include:

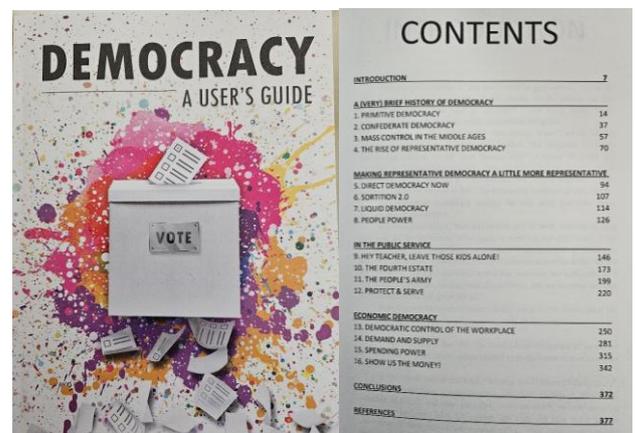

"Without an analysis of power, it is hard to understand inequality or much else in modern capitalism."

"It's what passes for economic debate in a media that,

far from recognising the role of power in capitalism and seeking to hold that power to account, is part of the power structure itself. Our corporate media, like other large corporations, likes to influence politics to change the rules of the game. Not only is it unwilling to scrutinise such power, it is incapable of doing so."

Democracy Rising

A [series of conversations](#) on deliberative democracy: how it works and examples of it working. By Resilience.org of the Post Carbon Institute.
